

OM KUMAR SAHU

Software Developer

+919226347015 | omkumarsahu747@gmail.com | Pune, Maharashtra | <https://www.linkedin.com/in/thisisom>

SUMMARY

Software Developer skilled in Python, Java, and OOP, with experience in building microservices, RESTful APIs, and scalable backend solutions using Django, FastAPI, and Flask. Proficient in AWS (ECS, EKS, EC2, CloudFormation), Docker, Kubernetes, and CI/CD pipelines. Strong background in cloud migration, automation, and database management with PostgreSQL, MySQL, MongoDB, and HBase, working in Agile/Scrum environments to deliver reliable and efficient software solutions.

TECHNICAL SKILLS

Programming: Python, Java, Object-Oriented Programming (OOP) | Frameworks & Libraries: Django, FastAPI, Flask, Pandas, NumPy, Microservices, RESTful APIs, ORM | Automation, Tools & DevOps: Jenkins, Maven, Shell Scripting, CI/CD, Docker, k8s | Cloud & Databases: AWS, ECS/EKS, CloudFormation, PostgreSQL, MySQL, MongoDB, HBase, Oracle | Testing & Debugging: UT/IUT, JMeter, SoapUI, Kibana, graphana | Version Control & Agile: Git, Jira, Scrum, Confluence.

PROFESSIONAL EXPERIENCE

SOFTWARE DEVELOPER | [Amdocs](#) | Maharashtra, India

Jan 2024, present

- Implemented business requests by creating and deploying application images on Kubernetes clusters for the Openet project, handled customer tickets, and debugged Kubernetes issues to ensure reliable microservices deployments in production.
- Automated end-to-end processes using Python and Shell scripting and contributed to a microservices-based architecture for ordering, charging, and invoicing workflows, reducing manual effort by 40%.
- Developed and optimized Python scripts for Jenkins job automation, improving deployment efficiency by 30%.
- Developed RESTful APIs and contributed to microservices-based architecture for scalable backend solutions
- Developed solution for cloud migration of Amdocs Billing Product
- Debugged and monitored Diameter failures using Elastic Kibana, improving system reliability by 20%.

SOFTWARE ENGINEERING ASSOCIATE | [Amdocs](#) | Maharashtra, India

Jun 2022, Dec 2023

- Actively participated in Agile/Scrum ceremonies – sprint planning, daily stand-ups, retrospectives.
- Developed and enhanced the Ordering Management System (OMS) by implementing change requests (CRs) and fixing bugs using Java EE, Amdocs internal frameworks and Oracle DB.
- Developed Scripts in Python for automating recurring tasks.
- Optimized code for performance and quality, ensuring compliance with SonarQube standards and best practices.
- Collaborated with cross-functional teams to deliver high-quality software solutions.
- Perform UT and IUT for the developed functionality.
- Acquired in-depth business knowledge in the telecom industry, focusing on ordering, invoicing, and charging processes.

PROGRAMMER ANALYST TRAINEE | Cognizant | Remote

Jan 2022, May 2022

Received comprehensive training in Agile methodologies and gained practical experience working with Java EE technologies. Developed a strong understanding of software development life cycles, teamwork, and collaborative project management in Agile environment.

FULL STACK DEVELOPER INTERN | BimaXpress | Remote

May 2021, June 2022

Developed a Python-Django application integrated with Firebase as the database. Responsible for deploying the application on AWS EC2, ensuring seamless performance and scalability. Gained hands-on experience in full-stack development, cloud deployment, and backend integration.

VOLUNTEER EXPERIENCE

PRESIDENT | Full Stack Club | Oriental College of technology | Bhopal, M.P, India

Jul 2021, May 2022

Organized events and webinars, fostering a collaborative learning environment for peers. Played a key role in planning and executing activities that enhanced participants' knowledge in full-stack development and promoted community engagement within the club.

EDUCATION

BACHELOR'S DEGREE | Bachelor of Technology | Oriental College of technology, Bhopal, M.P, India

2018, 2022

10+2 | MATHEMATICS | RD Public School (CBSE), Betul, M.P, India

2016, 2018
